

Running the Numbers using Excel

This Workshop can help you...

"Excel in Business"

- Basic spreadsheet design and formulas to help track income and expenses
- Create customized spreadsheets that work for your business
- Understand how a cash flow projection can be your most valuable tool
- Learn how to develop and manage realistic revenue and expense projections

Learn to use Excel to increase your profitability!

"I was feeling lost and losing ground when it came to my business books. I was going to have to take money from my budget to hire a bookkeeper because it seemed so complicated. Paj showed me how simple it can be and now I feel like a huge load has been taken off my back."

~ Nanci Rogers, owner Ace High Leathers
