Non-growers must also complete “producer’s verification form” on the following page
The market features products that are hand-crafted by the vendor. As such, the market prohibits items that are re-sold or repacked. I verify that the items that I bring to market are raised or created by myself and not re-sold or repacked.

**Arts and Crafts Producers:** I understand that these items are limited to those made by myself with a purpose or theme interactive with agriculture and/or composed of predominately locally grown agricultural products or by-products. I am including with this application a detailed description or photographs of my products.

**Prepared foods, Meats, Fish, Eggs, Dried Produce:** I understand that I am required to be in compliance with local, state, and/or federal regulations for production of such foods. Foods produced at home must be in compliance with a Class B Cottage Food Operations Certificate. Meat producers must provide a letter from their USDA certified processor stating the products processed and the facility certification number. I am attaching a copy of current documentation from the relevant agency stating approval for the processed food products or meats that I intend to bring to market. These agencies may be: County Health Department, State Health Department, CDFA, or a Federal Agency.

I verify that all of the agricultural products I bring to the Mt. Shasta Farmers’ Markets are produced by myself at the location stated on the application form.

I understand that I am also required to display a copy of this documentation at my stall during market hours. Further, as it is the intent of the Mt. Shasta Farmers’ Market to promote local agriculture, I will seek out ingredients for my prepared foods that are produced by local growers.

The use of GMO ingredients in processed products is strongly discouraged! Vendors at the market should seek out alternatives to genetically modified organisms, i.e. the use of cane sugar rather than beet sugar, or the use of “Non-GMO Project” certified ingredients.
